VOLUME 87 - NUMBER 21 APPOMATTOX (VA.) - TIMES-VIRGINIAN, MAY 25, 1978

Father Darkleaf

BY CALVIN ROBINSON

Early Monday morning I went into my garden with a hoe and several packets of seed, intent on getting something planted. Moments later I returned, with nothing accomplished. Still too wet. But drying out is in process and before the end of the week will be in business. Farmers are late with plowing and planting. It has been a wet Spring, but Old Sol has not forsaken us and we will make it.

* * *

Around town . . . . . lots of roses in bloom. Mine are small reds. Also mock orange is in bloom. Even found a couple of late blooming tulips while pushing the lawnmower around an isolated corner. Ah Yes, weeds are not only the thing that grows.

* * *

The Division of Forestry does a good job, especially with loblolly pine plantings. Appomattox County has had over 892,000 loblolly plantings on some 1,116 acres.

* * *

And I hope Appomattox gets its share of tourist business this year. It is estimated that out-of-state visitors will spend some $1,118,000,000 in the Old Dominion this year. Add in the estimated $770,000,000 Virginians are expected to spend in travel in their own state, and it adds up to big business.

* * *

A large oak tree in the rear of the court house lot was blown down in a recent heavy wind. Same heavy wind downed other trees in the area, including a small one in my back lot. Hard to install power brakes or a steering wheel on a heavy wind.

* * *

Newest sport around town, boxing. Matches were held at the depot building Saturday and further matches are scheduled for Lynchburg next month.

* * *

Browsing in my Den library, came across a 484 page book over 100 years old and on the subject of manners and deportment. Wow, how things have changed. Consider this item I copied . . . "no gentleman will ever insult a lady by smoking in the streets 'in her company."

* * *

Also Garland Banton phoned Mr. Banton, formerly of Appomattox, is with a top national firm and has been stationed in Baltimore, Pittsburgh, Chicago, etc.

* * *

Also, thanks to Robert I. Scott, Jr. for a copy of Sporting News magazine. Will pass it along to Harry Byrd Stanley when finished, as he is another who keeps up with sports. The magazine featured an article about the fabulous Cy Young, one of the great baseball pitchers of all time. He began pitching about 1890, when catchers caught barehanded. His name was Denton. True Young, But was nicknamed Cy, for Cyclone. Was a twenty-game winner sixteen times. Won 511 games, lost 313.

Opinions vary as to what was the most important invention. How about the one of the year 1859, by an Ohio cafe owner, James Ritty. I found a write-up about it in a 1959 Hobbies magazine. He had an inspiration from watching a ship's propeller and its revolutions being counted automatically. His invention was The Cash Register. Was crude at first, but it worked and now is a masterpiece of mechanical perfection. Heavens to Betsy, just suppose checkers and cashiers in modern supermarkets had to add up each customer's order with a pencil and a brown wrapping bag, like in old days before most stores had a cash register! Talk about shopping lines, we would have endless ones. Modern stores go all out to make shopping easier, and faster. Thanks for reading, and seeya next week.

NEW POSTAL RATES EFFECTIVE MAY 29

The cost of mailing a letter will advance to 15 cents Monday, May 29, the first increase in two and one-half years, it was announced May 19, 1978 by the Postal Service's Governors.

At a special meeting Friday, May 19, the Governors considered and approved higher rates for letters and other classes of mail that were recommended May 12 by the Postal Rate Commission.

The new rates and fees, effective at 12:01 a.m. (Local Time) May 29, are expected to increase Postal Service revenues by $1.9 billion per year.

The Governors expressed concern that the sharp increase in parcel-post rates (fourth-class) recommended by the Postal Rate Commission could "threaten the survival" of this class of mail. The Commission had recommended rates 35 per cent higher, on the average, than the current rates.

Chairman M. A. Wright said as a result of the fourth-class rates going into effect May 29 the Postal Service will "not be as competitive as it should be. We need a restructuring of rates." The Governors directed the Postal Service to prepare a new parcel rate proposal for consideration by September.

Concurrently with the domestic rates, international surface rates will go up to 10 per cent, on the average. There is no increase in postage for international air mail or air parcel post.

Highlights in the rate package include: -- Presorted first-class rate of 13 cents. -- Priority mail rates (first-class weighing over 12 ozs.) are up 10 per cent, on the average. -- The introduction of discounts in second-class rates for publications able to presort to ZIP Code areas and carrier routes.

-Bulk third-class (advertising mail) minimum per piece rate of 8.4 cents. Rates are up 12 per cent, on the average for this class. -- Zoned parcel post rates are up sharply for lighter weight packages. Special fourth-class (books and records) up 50 per cent, on the average. -- The address correction fee remains at 25 cents. -- Limit raised to $400 for money orders, C.O.D.'s and insurance. -- Registered coverage raised from $10,000 to a maximum of $25,000.

Beginning May 23 post offices will be issuing an "A" stamp, which has been assigned a value of 15 cents. It will be available in sheet, coil, booklet and envelope formats. Also, offices are receiving additional supplies of the two-cent stamp which can be used with the 13-cent stamp for mailing letters after May 28.
